

AN IMPORTANT MESSAGE FROM MARCOLMAR FIREARMS

To our valued customers and the many friends we've had the privilege of meeting over the past 25 years of building firearms:

Over the past five years, our small three-person team has had the honor of developing, building, and shipping the CETME L, LC, LV, and LV/S rifles—5,000 firearms in all. We are deeply proud of what we have accomplished together, and we have truly enjoyed every step of this journey with you.

As many of you know, recent health issues led us to step back from rifle production and focus instead on supplying high-quality CETME L platform parts for home builders and small-run firearms manufacturers. It has meant a great deal to us to see so many customers and supporters continue to believe in this platform and proudly own our rifles.

With the recent large importation of CETME LC kits—and our understanding that more L kits are on the way—we want to be honest with you: our current infrastructure is no longer enough to provide the level of customer service you deserve.

To make sure you continue to receive the support and service you deserve, we have forged an agreement with our friends at CENTERFIRE SYSTEMS (www.centerfiresystems.com) to become the sole sales source for all MarColMar CETME L parts and accessories.

EFFECTIVE 8/8/26 AT MIDNIGHT, ALL ORDERS ON MARCOLMARFIREARMS.COM WILL BE SUSPENDED WHILE WE COMPLETE THE TRANSITION OF INVENTORY, SALES, AND CUSTOMER SUPPORT TO CENTERFIRESYSTEMS.

Any order or build you have placed on our website before this time will still be completed by us. There is no need to reorder. **Bending Jig rentals will still be done on our website, as well as ordering the upcoming 50 CETME LV/S rifles with the rare Muehler mount SUSAT scope.** All our other parts will be transitioning to CENTERFIRE through the coming weeks.

We would ask for your patience during the process as there are thousands of parts and configurations to be moved and uploaded to Centerfire. Their state-of-the-art systems and customer support will ensure you get the service and timely response you deserve, and will allow us more time to focus on manufacturing and developing the finest parts for the CETME L.

God Bless you all!

Dave Bane, Owner
